INTRODUCTION

Creative writing is based more on manifestation rather than on expression. It does not inform rather reveals, so it bears no reference. The best creative writing is critical, and the best critical writing is creative. The present article is the outcome of creative writing meant for lay readers. As such free style is the methodology adopted so that the pleasure of reading can be enjoyed by the common mass. As you know well that, Francis Bacon (1561-1626), the immortal writer, wrote many essays, and notably "Of Love", "Of Friendship", "Of Ambition", "Of Studies", etc. The myriad-minded genius rightly pointed out that all the words of the dictionary can be the themes of essays one can write. But little has been done, in this regard since his death, in order to finish his unfinished monumental works. In fact Bacon's way of presentation and his unique style kindled imagination and inspired me to write essays, in the light of creative writing, thus to get relief through Catharsis.

ARTICLE

Priority is the state of being first in time, place, or rank. It implies preference. It is the privilege of preferential treatment. It is something that ought to be considered, dealt with, in the earlier stage of proceedings.

Priority is a thing that is registered as more important than others. It is a high or top place among various things to be done. It is the right to have or do something before others. It is the right to proceed before other traffic.

Priority is the fact or condition of being earlier or antecedent. It is the state or quality of being earlier in time, occurrence, etc. It is precedence in time, order, importance, rank, privilege, etc. It is an interest having prior claim to consideration.

Priority is the right to take precedence in obtaining certain

supplies, services, facilities, etc., especially during a shortage. It is a right to precedence over others in obtaining, buying, or doing something. It is an order granting this, as in an emergency. It is something to be given prior attention.

Getting priority is a warm feeling. Everybody wants it. But all does not get it. Only a VIP enjoys it. Also beautiful face always gets such chance everywhere and avails it accordingly. Lust of physical attraction accelerates it. This special status causes superiority complex to the receiver. A fool becomes captive of pride. A wise enjoys it, but seldom expresses it. He who offers priority and obliges the receiver, gets the priority back later on as either reciprocation or demand. It is one kind of investment thinking future return.

Priority is all everything. It determines the rise and fall of someone. Also intellect of a person can be judged from his priority thus fixed upon something or some person for a particular point of time. Someone can be identified regarding his status right or wrong. A judicious person gives priority sequentially and wins everywhere. A fool, on the other hand, gives top priority on the less prior thing and less priority to top most prior events to be done at once. Thus it loses both ways. It places right man in the wrong place and wrong man in the right place rendering the total project quite frustrated.

Human life is always changing. Priority will also change accordingly, as is believed by one school of thought. But this doctrine seems to be wrong. Situation may change, but priority will remain unchanged to realise the objective. To realise objective strategy may change. It may be changed as per demand of the situation. But aim must be fixed. One must realise his ambition by hook or by crook. However, through priority along with strategy a judicious person achieves desired goal.

Child will play. Student must read. Youth must work. Old will take rest. These are the priorities of human being in different stages of life. These sequences are to be maintained properly for the full blooming of human soul. If a student plays instead of study then he will fail in the examination. With this failure he will fail utterly in every sphere of life. If a person ignores this routine of life then misfortune dogs the person till he breaths his last.

A judicious person always fixes priority before taking any action. The learned knows that strike the iron when it is hot. At that moment the hot iron can be shaped as per desire and demand as well. Man experiences prior events. Also man practises priority. Thus man faces priority in different forms and features having different dimension and degree as well.

One must decide what his priorities are. You have got your priorities all wrong or back to front. Housework is low on her list of priorities. Improved housing is a top priority. The government gave top priority to reforming the legal system. The search for a new vaccine took priority over all other medical research. Priority cases such as homeless families get dealt with first. I have or take priority over you because I have worked here longer. Vehicles coming from the right have priority. Prioritizing your work can help reduce stress. The girl has priority over the boy in her claim. Rescue operations were given top priority during the floods.

Different persons differ with their different priorities. Priority differs as the life advances. VIP gets priority every where in every ages. During flood and fire rescue is the priority. A child may disobey. It may drown in the water. Someone may rebuke such a drowning child for disobeying instead of rescuing first. If the child is not rescued first considering its priority then it will die.

To the lover tender touch is the priority. Warm reception is the priority expected by the guest. Mother gives priority to the ailing child. Live together gives top priority to the career only, not to the bastards. For bastards there is orphan house looked after by the government. These unfortunate human babes do not get mother's affection. They become unruly and prodigal. They are the headache of the society thereby nation at large. Thus live together is not illegal, it is immoral. Immorality is the priority to a careerist who is always selfish.

CONCLUSION

Such a selfish giant is either dangerously brilliant or brilliantly dangerous or both simultaneously. To such a careerist fast life is the priority. Mere enjoyment having no bondage is all and everything. They contend that life is only for once. As such they want to drink life to the lees. They live for enjoyment. They dream for enjoyment. They cannot think anything without any enjoyment. They are ready to die even for enjoyment. Enjoyment is the priority of such a crazy soul.
