INTRODUCTION

Creative writing is based more on manifestation rather than on expression. It does not inform rather reveals. So it bears no reference. The best creative writing is critical, and the best critical writing is creative. The present article is an outcome of creative writing meant for lay readers. As such free style is the methodology adopted so that pleasure of reading can be enjoyed by the common mass. As you know well that Francis Bacon (1561-1626), the immortal essayist, wrote many essays namely Of Love, Of Friendship, Of Ambition, Of Studies, etc. The myriad-minded genius rightly pointed out that all the words of the dictionary can be the themes of essays one can write. But little has been done, in this regard since his death, in order to finish his unfinished monumental works. In fact Bacon's way of presentation i.e., his unique individual style kindled the imagination already in me and encouraged me as well to write essays, in the light of creative writing, thus to get relief through Catharsis.

ARTICLE

Pregnancy is a natural phenomenon. But a woman becomes pregnant due to natural partiality. Both man and woman enjoy physical relationship. Both are liable for motherhood. But liability is fixed only upon the woman who experiences labor pain alone. And the man remains unpunished, since there is no such division of labor pain.

The man either avoids or escapes. The woman has to carry the luggage of enjoyment and thereby throb of life till the completion of biological process. Even after that the child needs mother's love and affection without which a child becomes emotionless robot.

However, if the parents, both married and unmarried lead a fast life the children are deserted in the home of orphans. In fact, such home produces second-class and low-graded citizens who are hated by the people of main stream. Since, these unfortunate mass does not get permit to be the member of society they either suffer from frustration or become criminals.

Since child is the father and future of any nation, a

judicious state cares its children. A good state takes the care of both child and senior citizen to repay the debt to the latter.

But the great state, in addition of that, respects its women also. The rise and downfall of any nation depend on the honor shown to its women. Thus women play the pivotal role of the prosperity of the society. If a pregnant woman gets due care and security, both physically and mentally, it can offer healthy babies who are the valuable asset of a nation.

A virgin is free. But motherhood chains her. For this imprisonment men are equally liable. So, every state and especially patriarchal society should mind it. As such national policy for its own sake should favor the mothers, the creator, for full blooming of the children, the creation.

A student should not be mother. It is a hindrance for her career. She may welcome motherhood after being established physically, mentally and economically as well. Further, there should be arrangement so that the working woman gets leave with full pay. Because, a woman takes the risk of her life for another life but never a man. As such the nation should repay the debt to the motherhood. There should be cress for children for the working women. Also, they should get extra financial benefit for the expense of newborn babe. Because, financial hardship and indifference of state refrain the new couple from giving birth to children.

CONCLUSIONS

A woman should get benefit from the inception of being conceived. Study should always be conducted to know the problems they face. It should be amended time to time as it changes as time advances. In fact parents are the owner of children but state is the guardian. The prosperity of a nation depends on human resource, the asset of the nation.

This asset becomes liability if the children grow uncared.
